Red Internacional de Escuelas

Centros de Entrenamiento Autorizados

10. Los Centros de Entrenamiento Autorizados son organizaciones especializadas en capacitación que han sido autorizadas para impartir uno o más cursos IATA/UFTAA o IATA/FIATA. La autorización para enseñar estos cursos se otorga sobre la base de la capacidad pedagógica demostrada en las respectivas asignaturas, así como la competencia global de la institución para proveer un entrenamiento de calidad.

- Listado de los Centros de Entrenamiento Autorizados por IATA/UFTAA
- Listado de los Centros de Entrenamiento Autorizados por IATA/FIATA

11. Le rogamos tomar nota que a cada Centro de Entrenamiento Autorizado le está permitido fijar sus propias tarifas y estructura de cursos, independientemente de la estructura de aprendizaje a distancia de IATA/UFTAA o IATA/FIATA. Sin embargo, los exámenes sólo cubren el contenido de los cursos IATA/UFTAA o IATA/FIATA.

Escuelas de Entrenamiento Acreditadas

12. La Red de Escuelas de Entrenamiento para Productos Peligrosos Acreditadas por la International Air Transport Association (IATA) es una apreciada comunidad de escuelas de entrenamiento para Productos Peligrosos que entregan la certificación IATA en todo el mundo.

- Listado de Escuelas de Entrenamiento Acreditadas por IATA

13. Las Escuelas de Entrenamiento Acreditadas están capacitadas para ofrecer a sus clientes capacitación de calidad, armonizada y aceptada, en productos peligrosos y cargas especiales en áreas de vital importancia para la industria de carga aérea.

Entrenamiento de Líderes de Capacitación

14. El alto costo es el factor que más inhibe a las organizaciones para subcontratar la capacitación. Aunque es una buena idea subcontratar las capacidades de entrenamiento en ciertas áreas, otras secciones que requieren un estricto control interno se manejan mejor de manera interna. Con el propósito de seguir liderando en la dinámica industria del transporte aéreo, **la inversión en el desarrollo de recursos internos competentes para la capacitación es una exigencia permanente.**

15. Para satisfacer esta necesidad, IATA ha desarrollado un exhaustivo programa para entrenar a los líderes de capacitación, tanto nuevos como experimentados. Nuestros cursos para entrenar a los líderes de capacitación pueden combinarse con cualquiera de los cursos de **airline, airport, cargo o civil aviation** para entregar a los instructores la capacitación y destrezas específicas que ellos necesitan para desarrollar las habilidades dentro de sus respectivas organizaciones.

Cursos para Instructores:

- Instructional Techniques
- Instructional Design
- Training Needs Assessment
- Developing e-Learning Solutions

Curso para Gerentes:

- **Management of Training**

16. Si su organización está buscando cómo aumentar su autonomía satisfaciendo sus propias necesidades de entrenamiento, estos cursos son para usted.
